PROFESSIONAL SUMMARY

Data and BI professional with 3+ years of experience in financial services and fintech, specializing in AI-driven workflow automation, automated data pipelines, and BI dashboard development. Builds AI agents using internal LLMs and Microsoft Copilot to synthesize data across multiple internal systems into actionable reports and recommendations for support, sales, and operations functions. Proven track record of driving measurable impact, including uncovering $180K in annualized savings through extensive data analysis. Experienced in partnering cross-functionally with Finance, Product, and Operations teams to deliver scalable, data-driven solutions in fast-paced environments.

TECHNICAL SKILLS

Analytics & BI: Tableau, Power BI, Excel (advanced)

Languages: Python, SQL

Data Platforms: Snowflake, AWS, Alteryx, JIRA

Competencies: AI agent development, LLM-powered workflow automation, Microsoft Copilot, data pipeline automation, ETL, statistical modeling, data visualization, cohort analysis

Certifications: Microsoft Azure Fundamentals, Alteryx Designer Core, Snowflake SnowPro Core

EXPERIENCE

JPMORGANCHASE *Tampa, FL*

Associate, Omnichannel & Biometrics Performance Analytics *June 2026 – Present*

- Design and deploy AI agents using internal LLMs and Microsoft Copilot to automate multi-step analytics workflows across the omnichannel and biometrics support organization, connecting to multiple internal datasets to generate synthesized reports and recommendations
- Build agentic workflows that triage and generate recommended resolutions for support tickets, giving front-line and leadership teams faster, more consistent decision support
- Orchestrate data pulls across Snowflake, Tableau, and internal systems to power AI-generated sales and performance recommendation outputs for omnichannel stakeholders
- Partner with product and engineering stakeholders to identify and prioritize high-value use cases for AI agent automation across omnichannel support and biometrics performance functions

Corporate Analyst Development Program *July 2024 – May 2026*

- Rotated across multiple Merchant Services functions — analytics, process improvement, and project management — leading cross-system data initiatives, driving operational efficiency gains, and managing stakeholder deliverables across onboarding, billing, and platform support workstreams
- Automated billing reconciliation logic using Python and SQL, reclaiming 1–2 hours of manual effort weekly and identifying $180K in annualized savings by surfacing systematic billing errors
- Engineered end-to-end automated data pipelines in Snowflake and Alteryx to cleanse, standardize, and publish operational and billing data to Tableau across payments support and merchant services onboarding functions, eliminating manual reporting overhead
- Designed and maintained a suite of Tableau dashboards- spanning support KPIs (case volume, escalations, SLAs, aging trends), enterprise client adoption, hardware payment device return/replacement rates, and onboarding KPIs - informing leadership decisions across three rotations
- Presented cost-saving analyses and KPI performance trends to senior leadership, translating complex datasets into clear narratives that supported strategic resource allocation decisions

Summer Analyst – Commercial Banking Product Finance *June 2023 – August 2023*

- Led an ETL project automating reporting for the pricing team using Alteryx and Tableau, reducing 3–4 hours of manual labor per month and improving insight delivery across multiple KPIs

ELEVATED IMPACT SOLUTIONS *Remote*

Founder | Web & CRM Solutions Consultant *January 2024 – Present*

- Build and manage data-driven websites and custom CRM workflows for 10+ local businesses, automating client outreach and lead management pipelines to improve operational efficiency
- Develop SEO-optimized, mobile-first web solutions and provide ongoing analytics strategy to help clients measure growth and scale their digital presence

TIPPIE COLLEGE OF BUSINESS – UNIVERSITY OF IOWA *Iowa City, IA*

Graduate Teaching Assistant – Data Mining *January 2023 – December 2023*

- Instructed 200+ students in core data mining techniques including supervised and unsupervised modeling
- Developed Python grading automation scripts for class projects, reducing manual grading time by 50%+

SPARTAN FORGE – DEER PREDICTION APP STARTUP *Remote*

Machine Learning Research Intern *October 2022 – May 2023*

- Integrated normalized mapping vector layers into the application backend using Python, improving mapping quality and user experience for thousands of active users

THE UNIVERSITY OF IOWA COLLEGE OF NURSING *Remote*

Database Developer *February 2022 – May 2022*

- Built a relational database tracking 100+ hospitals and 2,000+ nursing residents enrolled annually, and developed automated workflows for data collection, reporting, and invoicing — reducing invoicing time by 50%

EDUCATION

THE UNIVERSITY OF IOWA – TIPPIE COLLEGE OF BUSINESS *Iowa City, IA*

Master of Science, Business Analytics *December 2023*

B.B.A., Business Analytics & Information Systems *December 2022*

GPA: 3.7 | University Dean's List | 1st Place – USITCC National Case Competition
